just for You

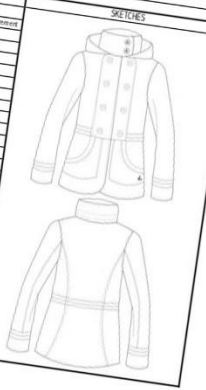

DESIGN

From patterns, fabrics, and graphics to cut and sewn pieces, we offers cost effective expert design services. Our designers are here to help you with artworks and logos or the technical side with product design and tech packs.

Tech Packs give the factory detailed specifications such as artwork placement, fabrication, spec measurements and construction details that are required to produce a garment.

DEVELOP

Once your techpack is complete, we complete the factory setup for each design according to specifications and produce samples. The process varies depending on the manufacturing process required to produce your design.

From textile sample prior to production whereas custom-built garments (cut&sewn) get a prototype along with a fit and sales sample prior to production.

Our services include:

- Artwork Setup
- Pattern Development
- Fabric and Trim Sourcing
- Fit Development
- Prototype, Fit and Sales Sample

Build as your request specification

to Prototype as Sales Sample

bring your design to life!

MANUFACTURE

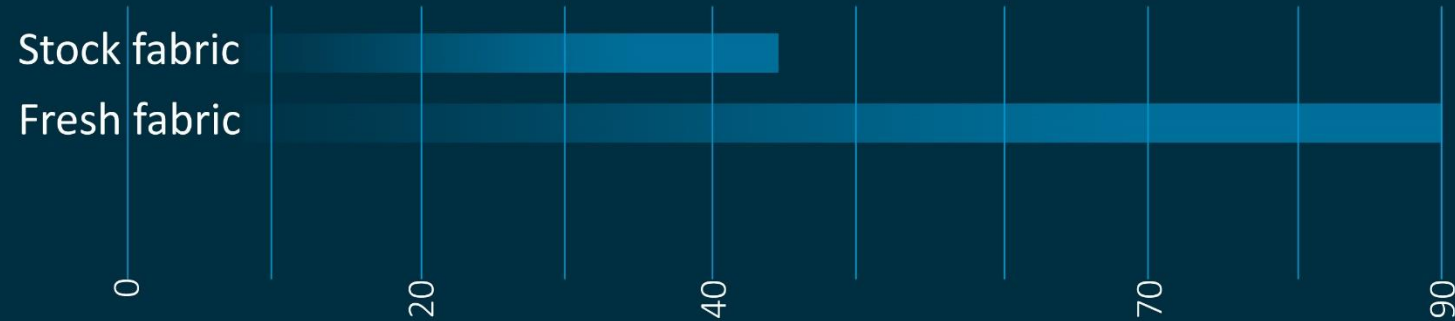

Once you're ready to place a production order or get a quote for a production order, you're at the right place.

MPG Manufacture is where you place orders, big and small.

It's important to note that to manufacture your products, we will need an approved tech pack and sample. For cut and sewn items we will need a techpack, production pattern and sample, all of which are created.

TIMELINES (in days)

Turnaround times are determined by the manufacturing process used to complete your order. General turnaround times are listed to the left but are subject to change based on availability: (rush orders are available)

Please Note:

Tech Packs and pattern samples created by a 3rd party are ONLY acceptable after review and approval by our staff
